The Hong Kong University of Science and Technology
2014-2015

A-Levels – Maths (A) | Further Maths (B) | Physics (B)
Haybridge Sixth Form
2010-2012

TESTIMONY

❝ Her amazing creativity, her impressive technical knowledge, her boundless enthusiasm for everything she does, which, coupled to her naturally disarming and cheerful personality, makes for somebody who will be an incredible asset to whichever company or industry she chooses to move into.

Robert Powell
Mentor, University of Warwick

INTRODUCTION

Hello! I'm Amy, a fresh Computer Science graduate turned user experience enthusiast. I am passionate about creating experiences that users not only find easy, but also enjoy and remember. I am skilled at all aspects of designing a system from start to finish, and use my abilities to take products from humble beginnings to powerful endings.

EXPERIENCE

User Experience Designer and Developer | University of Warwick

September 2015 – September 2016

◈ Designed and implemented systems to streamline web design form submissions. Forms are dynamic, designed to provide as much visual feedback as possible.

◈ Liaised directly with clients within the university one-on-one to create bespoke web design solutions.

◈ Collaborated with developers to improve the university's admin systems, creating solutions heavily influenced by user feedback and usability decisions.

User Experience Internship | University of Warwick

July 2015 – September 2015

◈ Experience in widely used industry level usability techniques, working directly with users to test design solutions against the user's needs.
